Ragnarok Private Servers 3rd Job Ragnarok Online Ragnarok Online2 Biggest WoW private server with more 45 000 ppl.. Delete your cookies For firefox it's under tools > privacy > show all cookies > delete all 3.. Exciting gameplay, rewarding loot, longterm servers, grand resets, vote Ragnarok Online - Private servers, Guides, Guilds, free servers.. Download game the amazing spiderman 2 apk Turn off computer and wait for a lil bit and your IP will reset and you can vote again 7.. Type in your voting link and press go you SHOULD be able to vote and it will count as a 'unique' vote 5.. Delete your cookies For firefox it's under tools > privacy > show all cookies > delete all 3.. Ok guys this is kind of 'cheating' but I don't think it really is =P So this guide will show you how to vote more than once every 12 hours.

Turn off cable box or DSL box 4 Wait 1 minute and turn on again and repeat! Third way with a STATIC (nonchanging) IP addresses 1.. Rinse and repeat MisterEMU on MMO is me =) Last edited by ragingazn628; at 09:41 PM.. Delete your cookies For firefox it's under tools > privacy > show all cookies > delete all 3.. Hack For RagnarokGo to run and type in cmd 4 Type in ipconfig in cmd box 5 Next type in ipconfig /release or just '/release' and ipconfig /renew or just '/renew' 6.. First way requires you to have 56k Dial up - not many people use it now a day but if you do great! Dial up and connect to internet and vote 2.. bat extension) type this inside Echo ipconfig/flushdns ipconfig/flushdns echo ipconfig/release ipconfig/release echo ipconfig/renew ipconfig/renew exit Run the bat file about 10-20 times to get really nice and new ip address another way is just download 1 of those 'hide ip' programs which actually 'hide' your ip by changing it Last edited by xdreamer; at 10:15 AM.. Go to proxy org and pick any proxy sites (most will work but some uses another mother to bypass sites but still have same IPs) 4.

Rinse and repeat! Fourth way 1 Delete your cookies For firefox it's under tools > privacy > show all cookies > delete all 3.. Disconnect and repeat Hack For RagnarokRagnarok Private Servers 3rd JobSecond way is similar but works with DSL or cable with DYNAMIC (changing) IP addresses.. Ok, this is a very easy way to do it if you DO NOT have static ip make a 'bat' file (make a text file and save it with.
